Summary

I'm an experienced Web Developer and with Graphic Arts background who specializes in rapid prototyping & responsive web development. For specific examples, see my interactive portfolio at jeffglover.com

Experience Highlights

Senior Web Developer
Liquor.com
January 2012 - February 2020

Liquor.com is the premier online site for all things booze and cocktails

Senior Engineer supporting a team of over several content producers using WordPress on a customized LAMP Stack with extensive jQuery/Javascript/PHP.

Tasks include rapid prototyping web portals for clients, building custom content plugins for WordPress, and enhancing existing architecture.

Middleware included Jira, GitHub, and AWS for server building, staging, and deployment.

Co-Founder,
Senior Web Developer
Aditive, Inc.
April 2009 - January 2012

ADITIVE enables advertisers to infuse social sharing directly into their online promotions.

Our white-label platform allowed advertisers to build and deploy a social sharing promotions within standard (and custom) advertising solutions.

I was in charge of the UI experience, as well as branding, marketing & communications.

Co-Founder,
Senior Web Developer
BuzzLogic, Inc.
May 2004 - October 2008

Pioneering Online Influence Metrics Measurement

The idea was that online influence could be measured and monetized. I co-founded the company in May 2004.

We were angel-invested first, then quickly VC-Funded to the tune of 9.6M.

I was in charge of the UI experience, as well as branding, marketing & communications.

Senior Web Developer
XOOM.com
January 1998 - March 2000

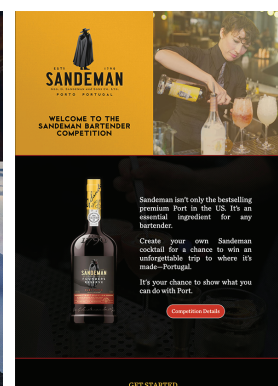

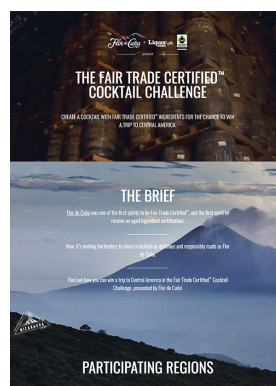

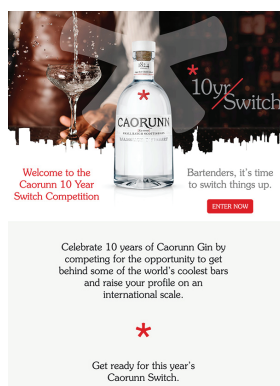

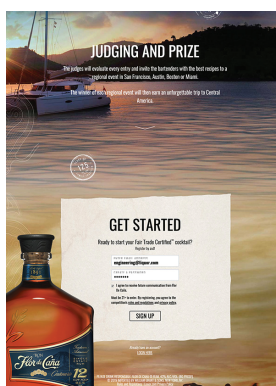

Online web site hosting and marketing platform.

In charge of all aspects of XOOM.com's web design, interface, and PHP-based architecture. Managed a team of 5 designers.

Worked under great pressure during XOOM.com's phenomenal growth from a 15 person company to a public company with over 300 employees.
